

QUESTIONS YOU CAN ASK YOUR DOCTOR ABOUT PHYSICAL SIDE EFFECTS

- What physical side effects can I expect?
- When do they usually start?
- How long do they last?
- When should I call the doctor about my side effects?
- Are there any precautions I should / can take?
- Are there any complementary therapies that might help?
- Should I be prepared for any long-term side effects?
- Can the treatment be stopped if I cannot tolerate the side effects?
